																											8663 dollars in Givebutter! Some of it is earmarked for a gift for David haivri's daughter, but as soon as we have a US bank account, we will be able to access that and breath for another month or few.	CLOSE!	*At the time of this writing, our website is hackaed and unaccessible. That includes amember info	amember is still inaccessible, we have pretty much separated paypal from amember so our old subscribers interact with us via paypal. Within a few months I will prioritize dealing with these subscribers, probably to move them over to givebutter
